

# MINTED @ MECHU

**With Minted's 5th Birthday approaching fast allied to the extensive refurbishment of Mechu, the night will once again be thrust into Birmingham's spot light.**

Now officially the longest running student/young professional night in Birmingham Minted has seen many different fads and genres come and go – but has always stayed true to the musical genius of Motown.

With the top DJ's in the midlands playing motown soul and funk in the bar and chart/classics in the club the night is set to continue well into the next decade.

We are open from 9pm until 2am and would recommend the night to anyone who wants just that little bit of sophistication in the week.
